

CHESTNUT TIME

Please note that the lyrics below are for the teacher's reference only. Ask the students to identify the images (Laugh, sweet potatoes, excited, almond, chestnuts, yummy, wine, family). Tell them to cut out the images by cutting along the lines. Listen to the song and tell the students to hold up the correct image when the music stops. The children can do it individually, or you can split the images between two students so that they each have four.
